REASONS FOR ALLOWANCE

Claims 1-8 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. EP 1134447 A2 cited by applicant has been considered and made of record. The examiner further cites Smirl '013, Zink et al. '730, Beneton et al. '767 and Orlamunder et al. '181 which show dual clutches; and Kajitani et al. '888, Grosse-Erdmann et al. '542, Jäckel et al. '348, and Hörmann et al. '715 which show arrangements for securing clutch housings to an abutment plate.

The following is an examiner's statement of reasons for allowance: None of the prior art of record shows or suggests a dual clutch including the first and second clutch areas arranged together as set forth in claim 1, and particularly wherein the second clutch area includes a force transmitting arrangement which extends across the abutment plate and comprises a first force transmitting element and a second force transmitting element connected by a press fit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
